J.F. Kennedy Federal Building
Boston, MA 02203

Dear Mr. Canzano:

Attached, please find the Hazardous Waste Manifests you requested. There are only two as we have only shipped material on two occasions. As I stated on the telephone, the only "hazardous wastes" Fraser Paper, Limited deals with are PCB's. These are usually shipped within 30 days of being generated and are now always shipped within 90 days of being generated. It is quite possible that in the past, some of this material was stored on site for periods in excess of 90 days.

The only time the mill generates waste PCB is when fluid is removed from a piece of electrical equipment or when PCB-containing electrical equipment is removed from service; therefore Fraser Paper, Limited does not continuously generate PCB wastes.

Please make any revisions to your records that you deem appropriate. If you require any further information regarding the matter, please call me at (207) 728-3321, ext. 85-383.

Yours truly,

FRASER PAPER, LIMITED

Mr. Stephen Groves, Director,
Bureau of Water Quality Control
Maine Department of Environmental
Protection
State House, Augusta, ME 04333

Dear Mr. Groves:

Enclosed, please find an application for an interim hazardous waste facility license for Fraser's papermill in Madawaska.

I am not sure that the papermill actually requires interim and/or final hazardous waste license. We are currently filing the enclosed application to cover all possibilities, but we may seek exclusion from permitting requirements in the event that the meaning of the applicable regulations are clarified.

Yours very truly,

FRASER PAPER, LIMITED

APPENDIX A

INTERIM LICENSE APPLICATION
FOR
WASTE FACILITY FOR HAZARDOUS WASTES (38 M.R.S.A. §1304(8)(C))
(Please attach additional pages as needed)

1. Name of applicant (facility owner or operator) _____
FRASER PAPER, LIMITED

Location of facility Bridge Street,
Madawaska, ME 04756

2. Detailed description of facility operation:

The manufacture of paper from purchased pulps and the off-machine aqueous (non-solvent) coating of some of the paper.

3. Identification of Hazardous Waste(s) handled in the facility:

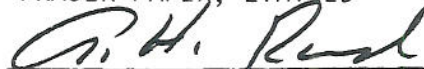

TCM waste from the exposed absorbing solution from an SO₂ bubbler box.
Possibly xylene.

4. License number of licenses presently issued to the facility under 38 M.R.S.A. §§414 and/or 591:

No. 414: No. 2727 No. 590: No. 1243

5. Certification: I, the undersigned, hereby certify that I will operate this facility in accordance with Board of Environmental Protection rules and will not alter or operate the facility except in accordance with such rules. I also certify that I intend to file for a license (non-interim) for this facility when applicable rules are promulgated by the Department of Environmental Protection.

STANDARD CONDITIONS FOR INTERIM LICENSES TO HANDLE HAZARDOUS WASTE

The licensee shall be in compliance with 40 CFR Part 265 on or before November 19, 1980 and shall also comply as specifically required below:

The licensee agrees that on or before October 20, 1980:

1. Any hazardous wastes being handled will conform to the specifications contained in 49 CFR Parts 172, 173, 178, and 179 (U. S. Department of Transportation Regulations dealing with packaging, labeling, marking and notification requirements regarding hazardous substances).
2. All handling areas for hazardous waste are kept secure. This means they will be fenced or otherwise cordoned off so that access by unknown or unauthorized persons is precluded.
3. All handling areas for hazardous waste will be inspected daily by the licensee.
4. The Department will be immediately notified of any inventory irregularity, leaking hazardous waste or other conditions which may allow the release of a hazardous waste.
5. Adequate safety equipment is available for employees handling hazardous waste.
6. A spill prevention, containment and control plan shall be submitted to the Department of Environmental Protection staff for review and approval.

SPECIAL CONDITIONS

1. On or before October 6, 1980, the licensee shall submit to the Department, for its review and approval, a detailed description of those areas where the licensee stores, treats or disposes of hazardous wastes and that description shall become a part of the application.
